SAFETY DATA SHEETS

The original requirements of Regulation (EC) No 1907/2006 (REACH) for Safety Data Sheets have been further adapted to take into account the rules for safety data sheets of the Global Harmonised System (GHS) and the implementation of other elements of the GHS into EU legislation that were introduced by Regulation (EC) No 1272/2008 (CLP) via amendments to Annex II of REACH.

To obtain compliant Safety Data Sheets for chemical products of Desco Europe, go to the product's web page and click "Technical Information". The Safety Data Sheet can be viewed, printed, saved or emailed.

According to Article 31 (1) of REACH, "articles" are exempt and no longer require Safety Data Sheets. Per Article 3 (3) of REACH and Article 2 (9) of CLP, an "article" is defined as...

...an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition.

Desco Europe non-chemical products meet this definition; therefore, under REACH Article 31, Desco Europe non-chemical products are exempted and a Safety Data Sheet is not required.

We will provide only the required Safety Data Sheets according to Article 31 (1) of REACH and advise end users to follow their hazardous communication recordkeeping policy for discontinued Safety Data Sheets.

The product information is to the best of our knowledge and may be based on the third party supplier information and/or our knowledge and experience regarding ESD control and other products.

See Desco Industries Inc limited warranty at DescoIndustries.com/Warranty.aspx which states in part: Desco Industries Inc only obligation shall be to replace such quantity of the product proved to be defective. Desco Industries Inc shall not be liable for any injury, loss, or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, users shall determine the suitability of the product for their intended use, and users assume all risk and liability whatsoever in connection therewith.
